

Remote bus

(main bus)

- RS 485 point-to-point
- Max. 256 devices
- Max. 400 m between 2 devices
- Total length: 12.8 km

IP20 bus terminal module
for local bus

Local bus TTL

(designed for a cost-effective installation of a remote sub-station in an enclosure)

- Max. 8 devices
- Max. 1.5 m between 2 devices
- Total length: 10m
- Max. current: 800 mA

Remote bus branch

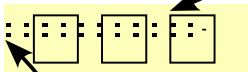

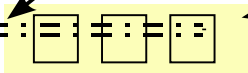

Bus terminal module: 170 BNO 671 00 (IP20)

Installation bus

(variant of remote bus
+ sensor power supply voltage)

- RS 485
- With 24 V, 4.5 A max. power supply
- Max. 40 I/O modules
- Max. 50 m between 2 devices
- Total length: 50 m

Interbus sensor loop

(direct connection of digital and analog sensors on Interbus-S via a bus terminal module)

- 1 unshielded pair + 24 V
- Max. 32 devices
- Max. 10 m between 2 devices
- Total length: 100 m

IP 65 bus terminal module
for installation bus

- Regenerates data
- Supplies 24 V/4.5 A

Bus terminal module: 170 ENO 396 00 (IP65)
