

TCP/IP

The DoD finances a project about
"Packet Switching"

1960

Development of the
ARPANET network (IBM)

1970

ETHERNET

Experimental version of Ethernet
defined by XEROX

1975

Ethernet principles
defined by XEROX

The INTERNET is launched:
TCP/IP developed in
current formats

1980

First specification of
Ethernet by XEROX,
DEC and INTEL

1982

Version 2 fo the
Ethernet specification

TCP/IP becomes the standard for
long-distance networks

1983

1985

IEEE 802.3 standardization of
CSMA/CD networks

Growth rate 15%

1987

Growth rate 60%

1996

MODBUS

1999

Schneider Transport Factory
