

Remote bus
(main bus)
- RS485 point-to-point
- Max. 256 devices
- Max. 400m between 2 devices
- Total length: 12.8m

Remote bus branch
Bus terminal module:
170 BNO 671 00 (IP20)

Interbus sensor loop
(direct connection of digital and analog sensors on Interbus-S via a bus terminal module)
- 1 unshielded pair +24V
- Max. 32 devices
- Max. 10m between 2 devices
- Total length: 100m

IP20 bus terminal module
for local bus

Local bus TTL
(designed for a cost-effective installation of a remote sub-station in an enclosure)
- Max. 8 devices
- Max. 1.5m between 2 devices
- Total length: 10m
- Max. current: 800mA

Installation bus
(variant of remote bus + sensor power supply voltage)
- RS485
- With 24V, 4.5A max. power supply
- Max. 40 I/O modules
- Max. 50m between 2 devices
- Total length: 50m

IP65 bus terminal module
for installation bus
- Regenerates data
- Supplies 24V/4.5A
Bus terminal module:
170 ENO 396 00 (IP65)
